

***"Dig where you stand" – Proceedings of the Conference on Ongoing Research on the History of Mathematics Education, held in Iceland, June 20 – 24, 2009***  
**University of Iceland, School of Education, 2009**

**Contents**

- Amy Ackerberg-Hastings*: John Playfair in the natural philosophy classroom
- Kristín Bjarnadóttir*: Björn Gunnlaugsson – Life and work. Enlightenment and religious philosophy in nineteenth century Icelandic mathematics education
- Fulvia Furinghetti*: The evolution of the journal *L'Enseignement Mathématique* from its initial aims to new trends
- Livia Giacardi*: The Italian contribution to the International Commission on Mathematical Instruction from its founding to the 1950s
- Hans Christian Hansen*: From descriptive history to interpretation and explanation—a wave model for the development of mathematics education in Denmark
- Bernard R. Hodgson*: ICMI in the post-Freudenthal era: moments in the history of mathematics education from an international perspective
- Iason Kastanis and Nikos Kastanis*: Toward a cognitive historiography of mathematics education
- Jeremy Kilpatrick*: The social efficiency movement in the United States and its effects on school mathematics
- José Manuel Matos*: Changing representations and practices in school mathematics: the case of Modern Math in Portugal
- Marta Menghini*: The teaching of intuitive geometry in early 1900s Italian Middle School: Programs, mathematicians' views and praxis
- Johan Prytz*: Professional debate and social structure in Swedish mathematics education, 1905-1962. The case of geometry instruction at the lower secondary level
- Pauline Romera-Lebret*: Teaching new geometrical methods with an ancient figure in the nineteenth and twentieth centuries: the new triangle geometry in textbooks in Europe and USA (1888-1952)
- Gert Schubring*: How to relate regional history to general patterns of history? – The case of mathematics
- Man Keung Siu*: Mathematics education in East Asia from antiquity to modern times
- Harm Jan Smid*: Foreign influences on Dutch mathematics teaching
- Wagner Rodrigues Valente*: History of mathematics education in training teachers of mathematics: considering its potentialities
- Thorsteinn Vilhjálmsson*: Budding mathematical science: An example from the Old Norse
