Introduction	9
The making of mathematics curriculum: the case of Telescola in Portugal in the middle 1960s Mária Cristina Almeida	11
Reforming mathematics education in the early 20th century: implications on "measuring", as presented in a Portuguese textbook Ana Amaral, Alexandra Gomes, Elfrida Ralha	23
Juan de Icíar's Practical Arithmetic (1549): Writing and reckoning in Spanish Renaissance Elena Ausejo	45
Teaching of conics in 19th and 20th centuries in France: On the conditions of changing (1854-1997) Evelyne Barbin	61
Values and virtues of a rural society reflected in 18th and 19th century arithmetic textbooks in Iceland Kristín Bjarnadóttir	77
Ernst Breslich and his influence in Brazil: The debate on fusion of the branches of school mathematics João Bosco Pitombeira de Carvalho	97
A controversy about geometry textbooks in Norway 1835-36 Andreas Christiansen	117
Geometry textbooks in the Dars-i-Niẓāmī educational reform in 18th century India Gregg De Young	129
Martha Dantas at Centre International d'Études Pédagogiques (Sèvres, 1953): a contribution for the history of Mathematics Education in Brazil	141

Doing math or learning to count? Primary school mathematics confronting the democratization of access to secondary education in France, 1945-1985 Renaud d'Enfert	149
The teaching of mathematics in the Jesuit Ratio studiorum Jesús Luis Paradinas Fuentes	165
Secondary teachers in the unified Italy: a group portrait with a zoom Fulvia Furinghetti	181
The emergence of the idea of the mathematics laboratory at the turn of the twentieth century Livia Giacardi	203
The rise and fall of Reality Geometry - a contribution to the history of geometry in Danish schools 1900-1960 Hans Christian Hansen	227
Supervising and monitoring: How the work of mathematics teachers was checked and assessed in the Soviet Union between the late 1930s and the 1950s Alexander Karp	239
The social efficiency movement in the United States and its effects on school mathematics Jeremy Kilpatrick	251
Mathematics education for poor orphans in the Dutch Republic, 1754-1810 Jenneke H. J. Krüger	263
The proposals of the School of Peano on the rational teaching of geometry Erika Luciano	281
Changing representations and practices in school mathematics: the case of Modern Math in Portugal Iosé Manuel Matos	303

Rational approaches to arithmetic and real numbers in the Italian textbooks and programmes for the classical and the scientific curricula Marta Menghini	317
The notion of method in 19th century French geometry teaching: three textbooks Guillaume Moussard	333
Historical research in mathematics education: The case of the metric system in Spain Miguel Picado, Luis Rico	351
On a missed attempt to introduce history of science in curricula. An analysis of Paul Tannery's program for the secondary school François Pineau	369
A course of mathematics (1798-1841): the American story of a British textbook Thomas Preveraud	383
Changes in the exercise of power over school mathematics in Sweden, 1930-1970 Johan Prytz	399
Practical mathematics in 16th century England: Social-economic contexts and emerging ideologies in the new Common Wealth Leo Rogers	421
From the few to the many: Historical perspectives on who should learn mathematics Gert Schubring	443
The first international reform movement and its failure in the Netherlands Harm Jan Smid	463
North American influence in mathematics teachers' education for primary school in Brazil Wagner Rodriguez Valente	477
Defining modern mathematics: Willy Servais (1913-1979) and mathematical curriculum reform in Belgium Geert Vanpaemel, Dirk De Bock, and Lieven Verschaffel	485

The mathematics teaching in the first years after the 1772 Reform of the University of Coimbra (Abstract) Jaime Carvalho e Silva	507
Forerunners of the field: Mathematics faculty and the academic climate for mathematics education in America during the 1890s (Abstract) Eileen F. Donoghue	508
Descriptive Geometry and the Polytechnic Schools – the origin and spread of an idea (Abstract) Snezana Lawrence	509
The organization of the mathematics teaching in Europe in the 1870s according to Jules Houël (1823-1886) (Abstract) François Plantade	511
Lessons in mathematics and astronomy in the court of Emperor Kangxi (Abstract) Man Keung Siu, Qi Han	512
